(814) 375-4772

### CRIME & LAW ACADEMY

**Crime:** students will study a crime scene with various experts from law enforcement. They will learn what investigators look for and how evidence is handled and given to those in the judicial system.

**Law:** students will prepare for a mock trial by practicing debating skills and preparing as an attorney, witness, defendant, etc. Finally, a mock trial will take place with all students participating and Judge John Foradora presiding.

### INTERPRETIVE ARTS ACADEMY

Students get creative with others who share their passion. Students will be asked to read a book of their choice prior to class. Through the **Creative Writing, Art, Music,** and **Theatre** modules, students will share various aspects of their book, learning how to express themselves in writing, acting, music, and art.

### WILDLIFE ACADEMY

**Wildlife Technology Day 1:** GPS tracking used in natural resources and recreation and radio telemetry used by wildlife researchers to track animals.

**Wildlife Technology Day 2:** Hands-on approach to marking, research, and survey methods with a biologist in a small wetland.

**Ranger Studies:** Students will learn new skills for outdoor survival.

**Wilderness Medicine:** Students will learn the basics of first aid and identifying wild plants.

*Students are asked to dress for the outdoors in this highly interactive program.*

### SCIENCE & TECHNOLOGY ACADEMY

**Chemistry:** Candy making to help students understand material composition.

**Computer Technology:** Shows students how to access their home computers remotely from another computer or their phone.

**Engineering:** Lego Robotics and provides students experience with exercises used in the Best Robotics competition.

**Meteorology:** Held at the Weather Discovery Center in Punxsutawney, students will explore the science and folklore of meteorology by interacting with hands-on exhibits. Students will delve deeper into the science of lightning and thunder to learn what a lightning flash really is, what the different types of lightning are, the relationship between lightning and thunder, and much more.
